

# WEST UNIFIED MEETING 5

## SYSTEM REQUIREMENTS

### System Requirements for Moderators and Participants

The information below describes the system requirements for both moderators and participants using the application or browser only features. Meeting these requirements will help ensure successful, productive meetings.

#### DESKTOP APPLICATION

Please note that participants are not required to install the meeting application in order to participate in a meeting. However, participants must install the InterCall® Unified Meeting® 5 application in order to be promoted to presenter.

|                                     | Moderators/Presenters Application   | Participant Application |
|-------------------------------------|---|-------------------------|
| Operating system                    | Microsoft® Windows 7 / 8 / 10<br>Mac OS X 10.10 (Yosemite) or higher  |                         |
| CPU                                 | 1 GHz processor - Windows<br>x86 processor - Mac  |                         |
| RAM                                 | 1 GB required for Windows and Mac   |                         |
| Disk space                          | 150 MB – Windows and Mac  |                         |
| Browser                             | Microsoft Internet Explorer® 9 or higher<br>Google Chrome™ 11 or higher<br>Mozilla® Firefox® 10 or higher<br>Safari® 6.1.6 or higher                                |                         |
| Network                             | High-speed DSL/cable or faster  |                         |
| Avatar picture                      | Flash Plug-In NPAPI Version 11.2 or higher required for creating picture with web cam –<br>Windows and Mac  |                         |
| Viewing archives                    | Microsoft Internet Explorer® 9 or higher<br>Google Chrome™ 11 or higher<br>Mozilla® Firefox® 10 or higher<br>Safari® 6.1.1 or higher<br>MP3 Support                 |                         |
| Webcam                              | Utilizes VP8 codec.<br>2 GHz Core 2 Dual processor and 2 GB memory minimum.<br>Note: Increasing number of video streams will also increase the system requirements. |                         |
| Presentations                       | Microsoft PowerPoint 2007 or higher   | N/A                     |
| Calendar integration                | Microsoft Outlook® 2007 or higher –<br>Windows<br>IBM Notes 6.0 or higher - Windows<br>ICS Supported Calendar – Mac   | N/A                     |
| Contacts / Address book integration | Outlook 2007 or higher - 32Bit - Windows<br>LDAP Integration - Windows/ Mac<br>Mac Address Book – Mac   | N/A                     |
| Instant messenger integration       | OCS 2005 or 2007 – Windows<br>Microsoft Lync® 2010 or higher – Windows<br>Skype 6.6 or higher – Windows/Mac   | N/A                     |

## BROWSER APPLICATION

If moderators do not install the meeting application, they can launch browser-only meetings to manage their audio participants online. With browser only, you can utilize features such as view/share webcam video, mute, dial me, chat and open/close meeting room door.

Please note that the following features are not available in browser only: integration with instant messenger, calendars, contacts, Voice over IP, content sharing and scheduling.

|                  | Moderator and Participant Browser Only Requirements   |
|------------------|---|
| Operating system | Windows 7 / 8 / 10<br>Mac OS X 10.10 (Yosemite) or higher<br>Linux<br>Android® Tablet (limited support)<br>iPad® (limited support)                                  |
| CPU              | 1 GHz processor - Windows<br>x86 processor - Mac  |
| RAM              | 1 GB required for Windows and Mac   |
| Disk space       | Not applicable  |
| Browser          | Internet Explorer 9 or higher<br>Microsoft Edge 20 or higher<br>Google Chrome 11 or higher<br>Mozilla Firefox 10 or higher<br>Safari 6.1.1 or higher                |
| Network          | High-speed DSL/cable or faster, 3G or faster for mobile devices   |
| Viewing Archives | Same OS/Browser as Participant Browser, MP3 Support   |
| Avatar picture   | Flash Plug-In version 11.2 or higher required for creating picture with web cam- Windows and Mac  |
| Webcam           | Utilizes VP8 codec.<br>2 GHz Core 2 Dual processor and 2 GB memory minimum.<br>Note: Increasing number of video streams will also increase the system requirements. |

we connect. we deliver.
